# Umang Gupta

Cybersecurity | Linux, Networking, Secure Systems  
Greater Lucknow Area

## Summary

BCA student focused on cybersecurity and networking fundamentals.

Hands-on with Linux systems, SSH, TCP/IP, and basic cryptography.  
I focus on understanding how secure systems fail, not just how they  
are configured.

Secondary experience in UI/UX and frontend, applied to improve  
clarity and security of technical interfaces.

---

## Experience

### Self-employed

Cybersecurity Practice (Self-Directed)

May 2024 - Present (1 year 10 months)

- Studied cyber threat intelligence basics and vulnerability management
- Performed basic reconnaissance and risk analysis on test environments
- Focused on fundamentals rather than tools

### Freelance

Security Assessment & Bug Hunting (Freelance / Academic)

July 2025 - December 2025 (6 months)

Lucknow, Uttar Pradesh, India

- Conducted supervised bug hunting and basic security assessments for small projects
- Identified common network and configuration-level risks
- Focused on understanding attack paths and fundamental security weaknesses

---

## Education

Integral University, Lucknow, Uttar Pradesh

· (2023 - 2026)
